PROFESSIONAL SUMMARY

Frontend Engineer with 6+ years of experience (4+ years specialising in React.js) building scalable, high-performance web applications. Proficient in React.js, Typescript, Redux Toolkit, JavaScript (ES6+), and Node.js. Skilled in reusable component architecture, REST API integration, performance optimisation, and agile development. Experienced with CI/CD pipelines, Git workflows, and scalable frontend system design.

SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux Toolkit, React Router, Context API, Custom Hooks, React Query, React Hook Form, Lazy Loading, Code Splitting, JWT Authentication, Responsive Web Design, NextJS, front-end, Axios

Testing: Jest, React Testing Library

Backend: Node.js, Express.js, RESTful APIs, WebSockets, CRUD Operations

Database: MySQL

Tools: Git, GitHub, Postman, Vite, Webpack, npm, CI/CD

Cloud / DevOps: AWS Basics, Vercel, Netlify

WORK EXPERIENCE

Frontend React Developer | K One Ventures Mar 2022 – Present

- Built and maintained 10+ reusable React component libraries, cutting UI development time by ~25% and enabling consistent design patterns across 5+ dashboards.
- Reduced unnecessary re-renders by ~30% through strategic use of React.memo, useMemo, and useCallback, improving perceived page load performance across 200+ internal users.
- Delivered 6–8 production features per sprint in an Agile Scrum team of 5 developers, consistently meeting release deadlines.
- Integrated 15+ REST APIs with centralised error handling, loading state management, and token-based authentication, reducing API-related bug reports by ~40%.
- Implemented code splitting and lazy loading, reducing initial bundle size and improving Lighthouse scores.

React.js Developer (Freelance) | Feb 2021 – Feb 2022

- Designed and delivered 3+ responsive React.js applications for clients using reusable component architecture and modern hooks, deployed on Vercel and Netlify.
- Integrated REST APIs with authentication flows and centralised error handling across all client projects.
- Optimised UI responsiveness and cross-device performance, achieving consistent layouts on mobile and desktop.
- Collaborated directly with clients through full project lifecycle — from requirements gathering to delivery.

Web Developer | Swasti Datamatrix Dec 2019 – Jan 2021

- Developed frontend and backend features using JavaScript, PHP, and MySQL; delivered CodeIgniter-based business applications including UI forms and payment gateway integrations.
 - Developed and maintained business applications using JavaScript, PHP, MySQL, and CodeIgniter.
 - Built responsive user interfaces, dynamic forms, and CRUD-based modules for enterprise workflows.
 - Integrated payment gateways, third-party APIs, and database-driven functionalities.
 - Optimized SQL queries and backend processes to improve application performance and reliability.
-

PROJECTS

School ERP System

Tech: *React.js, TypeScript, Redux Toolkit, Node.js, REST APIs, Jest*

- Architected scalable ERP modules covering student management, attendance, reporting, employee management, diary, circular, and homework workflows — serving a school of 500+ users.
- Built a reusable React component library and dynamic dashboard interfaces, reducing module development time by ~20% for subsequent features.
- Implemented role-based access control and protected routes for admin, teacher, and student roles.
- Optimised performance using memoisation, lazy loading, and code splitting; wrote unit tests with Jest and React Testing Library.
- Collaborated with backend and product teams in 2-week Agile sprints.

Student ERP Portal

Tech: *React.js, TypeScript, Node.js, Redux Toolkit, REST APIs*

- Developed responsive student portal features including profile management, results, notices, and academic tracking used by 300+ students.
- Implemented role-based access control and protected routes for students and administrators.
- Integrated real-time data updates and API-driven workflows, improving data freshness and user experience.
- Improved cross-device compatibility, ensuring consistent UI on mobile, tablet, and desktop viewports.

EDUCATION

Bachelor of Engineering (Computer Science) – SRTMUN University | CGPA: 7.1 | 2018

Diploma in Computer Engineering – MSBTE | 75%
